Hi Tony

Thanks for the reminder to look at this!

Good summary – though I think we have discussed additional details regarding our planned inquiry with OR – I added some notes raising some of those issues.

In particular, we have discussed the need to figure out how many people's drinking water is affected. This could influence what the remedy is.

I added a few comments, edits and notes. It's attached here.

Lucy

Dan, Ed, and Lucy,

Here is the briefing paper your folks and I have produced to guide our discussion with Chris Hladick a week from today. I'd like to go ahead and send that in to him soon. If you have any additional significant changes needed, please let me know. I'll plan to wait until at least Wednesday afternoon to send it in if I don't hear from you.

Thanks,

Tony
